Go distanceCombine two genres, distance puzzles and action adventures, Zombie Highway is all about trying to escape from zombie hordes by driving different types of vehicles. While driving and avoiding obstacles, you must avoid and kill zombies who try to turn the car and stop you from escaping. There are different types of zombies, including light, medium and heavy zombies, and the different weights affect how efficiently you can control your car. Not all zombies are bad though: Zombie Highway puts healing zombies in every weight class to help you regenerate your strength. Players can use turned cars to turn off zombies, or use one of the many different weapons in the game to shoot at them through the window. If a zombies force you to drive into crashed cars, the game is over. Swing and shootTo defeat zombies in zombie highway, you can beat the car using the accelerometer to turn zombies off, or shoot at them using weapons. The weapons range from pistols to machine guns with different power levels and can be upgraded with in-app purchases. The touchscreen controls are used to shoot the gun out of the car window to weaken the zombies.
